I rent at Non-responsive based on revised scope. I've been using this contaminated water when I brush my teeth and shower. My whole apartment stinks. I have a pipe that is leaking in my laundry room. I have a bucket under the sink the sink where pipe is leaking.

I was wondering why ever morning my apartment was smelling and it's making me nauseated and I was feeling sick. Last Thursday I received this notice down below. Now I'm concerned about my health. I am scheduling a doctor's appointment to see if I have been contaminated.
